Hi, Dustin:

The only thing I do not know is whether we shall post it for public comments first, which would not need WERB. In the past, some of IRs, we did, like 7977. Some of IRs, like our report on each SHA-3 round, I do not remember.

Maybe we already discussed, which I missed.

Thanks,

Lily

Subject: NISTIR ready for WERB?

Lily,

I've gone through several rounds of comments now, and I think the NISTIR is ready to be published. I think I need to WERB it, and then give it to Jim Foti. Is that right? Anything else I need to do before starting that process? Donna earlier suggested that we have Ed Roback read it as an external reviewer. If he agrees, we could have him be the external division reader for WERB. Let me know. Thanks,

Dustin
