Yes. Donna's sent me an agenda, which shows me having the earlier slot.

Should be fun!

Dustin,

Are you still able to go down to the MIT Club meeting on Friday (just at NCCoE)?

We can give you the earlier time slot so you can get out around 3:00.

-Andy

Thanks so much Dylan. I think they are most interested in understanding the world of possibilities in this space and gain an understanding of the challenges with blockchain and NIST work. I imagine the standards piece would be a light touch toward the end of briefing.

Regards,

Donna

Hi Donna,

I can put together some info on our internal efforts as well as what is going on after the first ISO TC 307 meeting next week – to provide an update on what is going on in the standards world (or at least the direction we are heading).

Hi, Donna and Dustin:

I will be at SC27 meeting that week. Dustin will cover the topic. If slides are needed, we will generate a simplified version of the slides used for National Science Academy to lead the discussion and receive feedback.

Regards,

Lily

Thank you so much for suggesting the A plus, plus team. I would suggest ½ hour on each topic. It seems to me that slides could help a bit but I think it should be up to the presenters. Does this work for everyone? The meeting will be from 2-4 at the NCCoE on April 21. We are still updating the agenda; however, I expect one talk would be from 2:15 to 2:45 and the second one from 3:30 to 4.

Regards,

Donna

Subject: Re: MIT Club

Sounds Awesome,

I recommend do Lily/Dustin for QRC, Andy/Dylan for Blockchain.

(They might also recommend others)

Is this a talk/chat, brief with slides, not sure yet, something else?

Matt

Subject: MIT Club

Matt,

Eric Berger (Georgetown and IETF guy) asked to host the MIT Club at the NCCoE on April 21 in the afternoon. We are going to talk about the NIST cybersecurity program and give them a tour of the Center. I thought it would also be good to have a few talks. Specifically, I am thinking about our work in quantum resistance crypto and blockchain. Who could help with that from CSD?

Thanks,

Donna
