[CFP announcement.docx](#)

---

Sara,

Our FRN notice will soon be posted, and we want to post several things to our PQC page on the same date. Larry has several technical files, which provide some guidance and examples on how to format some parts of the submissions. We'll need those somewhere. They include the files (API, VariableMsg\_2048, KAT, VariableLabel\_2048, IntermediateValues\_2048). They are referenced by the Call for Proposals main document. I haven't attached the main document, as the lawyers gave me several revisions to make. I hope to have it to you later today or tomorrow. I've also attached text that can be used as an announcement (CFP announcement).

If I don't respond quickly, it's because I'm on annual leave! (But I'm checking in at least daily).  
Thanks!

Dustin
