Dustin,

Here's what I have. Take a look and see if you think more needs to be added. Since things are kind of open as far as what can be submitted it's hard to be more specific. Let me know what you think and if things read ok.

Larry

Larry,

Just checking if you'll have the KAT stuff done today? Also, for the intermediate values file, here's what it says in the text:

a) If the execution of an algorithm produces intermediate results that are informative (e.g., for debugging an implementation of the algorithm), then the submitter shall include known answers for those intermediate values for each of the required security strengths. Examples of providing such intermediate values are available at:

<http://csrc.nist.gov/groups/ST/toolkit/index.html>.

Is there where the intermediate values file should be posted? Or on the [www.nist.gov/pqcrypto](http://www.nist.gov/pqcrypto) page?

Please send me the API, KAT, and intermediate values files when you can. The lawyers have signed off, so we should be able to post this later this week or next week.

Thanks,

Dustin

**Subject:** Re: Sample documents for PQC Call For Proposals

I have a sample Intermediate Values file, but I'm working on the KAT stuff. I'll have it all by Monday or Tuesday. Ok?

Larry,

Thanks for the API page. I'll get Sara to post it when we post the Call For Proposals. Do you

have the other files that you are working on? (I think it's the KAT and intermediate values).

Here is text for an API page. I can work with Sara on format stuff, but she usually does a good job of it.

I don't see the doc with the changed text. Can you resend that?

**Subject:** RE: Sample documents for PQC Call For Proposals

Larry,

Just checking on your progress for documents that we can post on our webpage for

- ? Sample files for the KAT values

- ? Crypto API for implementations

We will need them on the website before the CFP is posted publicly sometime in the middle of June.

Also, I edited the document to allow zip files and USB flash drives in addition to cd-rom's and DVD's.

Can you check that I phrased things okay? They are mentioned in sections 2.B.3, 2.C, 2.C.2, and

2.C.4. I also changed the section from "Optical Media" to "Digital and Optical Media". Does that

work? Thanks,

Dustin

I was talking to a couple of people about this today. I have some ideas and will start working on it.

Larry,

Can you start working on creating the sample files for the KAT stuff? We'll also need to have a document describing the API. I don't know the best way to do it, but hopefully you do! Thanks,

Dustin
