Jacob:

The easiest way to find csd stuff is to be familiar with <http://csrc.nist.gov> .

For the draft requirements and evaluation criteria, visit <http://www.nist.gov/pgcrypto>

If you have any question to locate the stuff, please let me know.

Lily

Subject: Where Are the Draft Criteria?

Is this it?

http://csrc.nist.gov/publications/drafts/nistir-8105/nistir_8105_draft.pdf

If not, where can I find it (and also, it should probably be more prominently available so the public can actually find it and comment on it!)
