Ah, this is probably the same date as the FRN is published, right? I think for our purposes, it can be removed.

Subject: one small fix

Sara,

Jacob noticed that at the bottom of the CFP pdf document, we have "Dated: XXX". We should probably put in a date or remove it. Either one is fine. If we want a date, then we should put it for December 15, 2016. This is low priority. Thanks!

Dustin
