Yeah… "Proposed" should be removed.

Subject: PQC Final CFP - Remove "Proposed"?

Quick question on the **final** CFP. All the headings still say "Proposed". Was that only meant for the draft CFP?

i.e.

2. Proposed Requirements for the Submission Packages
3. Proposed Minimum Acceptability Requirements
4. Proposed Evaluation Criteria

Thanks. I will start updating the CFP data today. The API and FAQ are the same version numbers as the last ones you sent (except FAQ you sent me a 2.4.1.Ray version that had tracked changes).

If you make changes to the CFP between now and posting, please track changes so I can change only the pages that are necessary. Ditto for future FAQ updates. ☺

Sara,

There is a newer version (it is attached). I also included the latest versions for the FAQ, and the API. I don't think there were changes since I sent them to you last time. I also attached a CFP announcement, which has the text we can use to announce the release.

Thanks!!

Dustin

Dustin,

I was going to start replacing the online CFP text (which is spread out over 10+ html pages.) Is there a newer version I should be using to do this? The last version I have is v4.5.

Thanks,

Sara

Sara,

Vickie told me yesterday the FRN package was with Melissa. Hopefully that means it won't take too long until it is posted. Just wanted to give you a heads up and check if you'll be able to post the various documents we have to our website for when it is published. I'm attaching the latest versions of all of them, although the CFP and FAQ will likely have a few small changes which I'll forward to you as soon as I have them. Thanks!

Dustin

- One of the attached files is the "Comments to post unformatted" doc, which has all the public comments we received. I seem to remember we had a formatted version? Do you have that? Because I'm not seeing it in my files.
