I think I managed to upload the gemms stuff sent to me. They kept using every half hour or so. I just uploaded it all. Hopefully you can figure out the right one to use.

Chrysallis didn't submit. Odd, I thought they would.

Yeah, sure. I'm busy uploading and updating right now. Enjoy Hong Kong.

It's okay with me if we accept these late revisions where they say they made a mistake and uploaded the wrong file. Can you finish uploading and update the master list with what time of scheme (kem/enc/sig and type: lattice, code, etc)?

When you've got it done, I assume we'll be in the low 80's. Whew! Thanks. I didn't assign you any technical reviews, just all the optical media reviews. If you want to do any technical ones, feel free to volunteer and add your name in. I appreciate all your help.

Dustin
