Donna,

Were you not going at all? If so, I will use your travel approval and justification.

If not:

Purpose: Attend the Quantum Safe Workshop

Benefit to NIST: Meet with international leaders in Quantum Resistant Cryptography to discuss NIST work in this space and obtain collaborators for future standards in cryptography.

Subject: ETSI Quantum meeting

Matt,

Thanks for taking a look at the ETSI Quantum Safe Workshop meeting. The meeting takes place in London this year and is scheduled for 13 -15 Sept. There is an executive session on the 13th and I am scheduled to speak at 11:40 on a panel – Public Sector Views on Quantum Computers and Threats to Governments. Michael Groves is chairing. On the 14th, I am speaking at 9:10 am on the world tour and was asked to provide a US update. Lily is chairing two sessions and speaking. The link takes you to the workshop.

<http://www.etsi.org/news-events/events/1173-etsi-igc-quantum-safe-workshop-2017?accordian=1>

My questions to you: Would you like to take my place at this event? Would you like to join the executive steering committee of the workshop?

Thanks,

Donna
