Fine meaning fine to require him to ask any questions via email like every other team has to, you mean? (I sorta feel like some submission team may complain if something with Albrecht on it gets farther along than theirs, so I want to be able to tell them that he was not present for any internal PQC team discussions and we gave him no special treatment and even directed him to get some minor issues ironed out with his submission only by contacting us via email like everyone else yadda yadda yadda)

I told him I'm not really comfortable with giving him guidance on what the issues are beyond the level of what I'm doing for every other team via email, in the interest of fairness (they're not here). If

you all really disagree I will though.
