Hi, Dustin:

The slides are good. I am sure the talk will be well received.

I am supposed to give a talk at ICMS "crypto module" community in May, which would be a talk in between, some very technical people and some IT secure people.

Lily

Subject: BITS PQC presentation

Andy, Lily,

    Adam told me to have a 15-20 minute presentation for BITS (Banking IT Standardization) next Thursday. I've attached some slides I used at a talk I gave at a workshop for people involved with security for vehicles.   I got good feedback from that talk, that is was very understandable, so I thought it would work well for this. Let me know if you have any comments or suggestions.

Dustin
