Hi Lily --

Ok, thanks, I'll keep that in mind for the future. Rene has nicely agreed to review.

Subject: RE: WERB review

Hi, Carl:

I think you can post and at the same time to start a WERB procedure.

Subject: WERB review

Hi Lily –

I wanted to get your advice on something, if you have a minute …

At CalTech (on March 14th) I'm planning to talk about my "Device-independent quantum key distribution" paper (the one I talked about at the QuICS Stakeholder's Day). Ideally I'd like to have the paper posted on the arXiv before the talk. However I was slow in finishing up the paper (my fault) and I only got a complete draft ready on Feb. 28th. This means that the time window for the WERB review is pretty short. So far I've gotten Emmanuel Knill to agree to review it, but I still need one more reviewer. (Stephen Jordan declined because he's busy, and I asked Rene Peralta yesterday

but he hasn't written back yet.)

Anyway, if I can't post the paper by the time of the talk that's ok – I can just offer to send it to any interested audience members. But I thought I'd check with you anyway to see if there's other options.

Have a great weekend!

 -Carl
