Results by PQCRYPTO are published on the project home page

<https://pqcrypto.eu.org>

under the section

Preprints and reprints

We also provide extensive tutorial material (videos, slides, exercises, etc.) as part of the PQCRYPTO Summer School on Post-Quantum Cryptography that took place in Eindhoven, NL, 19-23 June 2017. All files are linked from

<https://2017.pqcrypto.org/school/schedule.html>

As a resource outside the PQCRYPTO project we recommend

<https://pqcrypto.org>

as an overview resource with a good link collection and

the proceedings of the PQCrypto conference series and the summer schools held in coordination with them. All PQCrypto conferences

are linked from

<https://pqcrypto.org>

As PQCRYPTO we would be happy to contribute to the writing of the standing document.
