Hi, Dustin:

For those numbers, please ask Vickie. I did not make it right last time when I was filling the form for a visa photo.

Lily

Lily,

I guess I'm supposed to fill out a NIST form 223 for the poster. It is available at:

https://inet.nist.gov/sites/default/files/n223_1-2016.pdf

At the top it has some info that is required that I don't know. Such as project-task number, requisition number, organization number, etc. Do you have experience filling these out?

Dustin

Hi, Dustin:

It looks good to me.

Lily

Lily,

I made the changes you recommended. I decided just to remove isogeny-based schemes, and stick with the main ones.

Dustin
