Hi Yi-Kai –

Thanks for the suggestion, I've asked Ray. It would be great if you could do a WERB review also (since I could use you as my outside reader). Would doing it by June 27th be reasonable?

Hi Carl,

Sure, I can do it. Another person you could ask is Ray Perlner -- he knows some quantum stuff too. Let me know if you'd still like me to do it, though?

Cheers,

Hi Yi-Kai –

Is there any chance you might be able to a WERB review of the attached paper, as a substitute “division” reader? (I tried asking Rene Peralta, who is in my division, but he’s away. I was told that it’s ok for me to have you in place of a division reader since our division is limited in quantum members. ☺)
