Subject: LWC webpage - Comments on the R2 Candidates

Hi Sara,

Some of the comments in round 1 Candidates webpage (<https://csrc.nist.gov/Projects/lightweight-cryptography/round-1-candidates>) are still valid for the Round 2 candidates.

If Kerry does not object, would it be fine if we can copy the previous comments received during round one to the second round page as well? The following round 2 candidates received comments during the first round: Comet, Hyena, Knot, Lotus-Locus, mixfeed, Orange, pyjamask, Sparkle, spix, subterranean, sundae-gift, wage

Thanks,
Meltem
