We are looking at an meeting with Microsoft to continue our connections and overall synch and info exchange.

The dates look like Oct 2 and 3 and the draft agenda for now is below.

Take a look at calendars and block/hold dates if you can.

If you cant, let us know as well

Thanks

Subject: Re: Redmond on Oct 1

Hi Matt,

We are planning to start with a high level meeting on October 2 starting around 1PM and a full day meeting on the 3rd with deep dive discussions on specific topics.

Kevin proposes the following:

- Supply Chain - **Boyens**
- AI - **Elham**
- Quantum - **Scholl or someone on crypto or broader Quantum team**
- Standards - **Sal (are there specific standards efforts are of interest [ex, Privacy]?)**
- IoT - **Kat**
- 5G – still working on this one, haven't confirmed participation yet - **Jeff C**
- **Secure SW Dev FW - Murugiah/Donna**
- **Automated Crypto - Apostol?**

On our last call with Microsoft, Cloud (Azure and Office365), Zero Trust, and Identity were brought up as additional candidate topics.

Murugiah

Murugiah,
As I burn out all our money and look to burn 777 cash, do you have trip info for Microsoft? We are gonna ask Kevin to pay if he can
Just dates for us to be there for now and who you think should go from 773 other than you and I
Thanks
Matt
