That's a good list and I say go with those.

I'll put more meat on the bones, but want to get a quick list going... Thoughts?

- PNT profile developed and issued (EO 13905)
 - EO 14028 implementation process and key deliverables issued
 - Issue 800-53 rev 5
 - Issuing new and more practical and actionable resources (ex, ransomware and OT tips and tactics, profiles, etc)
 - PQC standardization conference
-

Subject: Input for end of year

Kevin,

I'm working on my end of year write up - can you let me know what you consider the top 3 or 4 cybersecurity/privacy accomplishments of this year? If you could send me some bullets (or sentence or two on each) by end of this week that would be helpful.

Thanks,
Jim
