We might miss each other today then. (b) (6)

Right, I remember Corbin. It's great that he will be interning at NIST.

I'll be at NIST this afternoon; hope to see you there

I'll also be at UMD on Friday (meeting with Jon and Corbin -- Jon's student, who will soon intern with us on the NIST PQC project -- at 11am, then going to lunch, then I'm free for the afternoon..)

Hi. I got back late last week, but I've been at UMD. I will be at NIST tomorrow. I'm going to the NIST PQC workshop but not CRYPTO itself. Then I will be at QCrypt in Montreal the week after that.
