Hi Meltem. I can review the paper.

Best,
Ray

Subject: Eurocrypt External Review

Hi Ray,

I am in the program committee of Eurocrypt 2021. I am looking for an external reviewer for a paper that claims quantum distinguishing attacks on full AES-192, and AES-256. This might be an important result, I wanted to have another NIST reviewer in addition to me. Would you be able to review it? The due date is November 23rd.

Thank you very much,
Meltem
